

Green Synergy Enhanced

A Supercharged Green Food

- **Green Synergy Enhanced** is a powerful wholefood concentrate with phytonutrients such as carotenoids, flavonoids, lignans and saponins with health benefits including cancer, diabetes, heart disease and stroke protection as well as inflammation reduction.
- **Green Synergy Enhanced** contains the super antioxidant green foods spirulina, chlorella and kelp from the ocean. Spirulina and chlorella contain nearly every nutrient required by the human body, in near-perfect ratios.
- **Green Synergy Enhanced** also provides a wide array of energizing organic green foods like kale, parsley and dandelion, all brimming with chlorophyll, essential botanicals and alkalizing properties to aid in digestion and optimal health. **The added Moringa is rich in healthy antioxidants and bioactive plant compounds.**
- **Green Synergy Enhanced** contains Jerusalem artichoke; a prebiotic with one of the highest levels of natural inulin, a necessary food for our good bacteria or gut flora and bioactive plant compounds .

What is Green Synergy Enhanced?

Green Synergy Enhanced is an alkaline blend of goat milk minerals and green superfoods. It is a powerful blend of botanicals that offers a host of benefits. The power of greens is truly amazing! This formula is a convenient way to enjoy the best of natural whole foods. One drink delivers an Oxygen Radical Absorbance Capacity (ORAC) of 2700 units which means you're getting 3 or more servings of your

favorite vegetables, in one powerful cocktail!

Green Synergy Enhanced is unique because it is the only green formula available that contains both botanical superfoods such acerola cherry, cinnamon, garlic, Jerusalem artichoke or turmeric, with the electrolyte/mineral superfood known as goat milk minerals. There are over 20 bio-organic minerals and electrolytes in goat milk. The minerals are readily recognized and absorbed by the body and maintain a symbiotic (working together) relationship with the green superfoods.

600 grams (21.2oz.)

Suggested use: Take 1 scoop once daily in water, juice, or your favorite beverage. Shake vigorously for best results.

What is New About Green Synergy Enhanced?

Experience the benefits of **Jerusalem artichoke** and a food based anti-caking agent. Jerusalem artichoke is a prebiotic, with one of the highest levels of natural inulin, a necessary food for our good bacteria or gut flora. A daily dose of Jerusalem artichoke will promote and support our intestinal tract flora, immune system and cardiovascular system. Further, it helps enhance the absorption of minerals. Due to its high fiber content, Jerusalem artichoke aids in stomach, bowel and colon health too.

Other benefits of Jerusalem artichoke include its ability to help lower blood pressure, promote hair and teeth health due to its high levels of iron, copper and Vitamin C, improve blood sugar levels due to the use of the inulin for energy metabolism and its ability to help with weight management. Jerusalem artichoke also has more potassium than bananas, provides a bio-available form of iron and provides a bio-available form of magnesium, which is important for nerve function, detoxifying the body and absorption of vitamins and minerals.

What Anti-Caking Agent does Green Synergy Enhanced Contain?

Many companies use synthetic, toxic substances as an anti-caking agent or silica. We have replaced silica as an anti-caking agent with an organic rice powder, making our products 100% food based.

Green Synergy Enhanced is GMO Free, Gluten Free and only uses sustainably grown and organic ingredients. It is also free of pesticides, chemicals, preservatives and additives.

Why you should choose Green Synergy Enhanced?

According to recent statistics, less than 1/4 of Americans eat the recommended 5+ servings of fruits and vegetables each day. These dismal numbers mean more and more individuals are opening themselves up to the dangers of poor nutritional support. Studies have found that certain valuable components in vegetables, known as phytonutrients, or plant derived chemical substances, have anti-mutagenic, free-radical scavenging, and immunity boosting functions, which help promote

health and prevent diseases, apart from their nutritive value. Nutritionally powerful phytonutrients such as carotenoids, flavonoids, lignans and saponins contribute to a host of health benefits and protection from diseases such as cancer, diabetes, heart disease, stroke, age-related macular degeneration and more. Vegetables also contain high amounts of vitamins and minerals that are being missed by those unable to afford time or taste for our vegetable friends. Green Synergy Enhanced is the perfect supplement to a diet lacking of vegetables and super antioxidant and alkalizing foods. Rather than going to the store, sorting through produce and finally preparing said produce, Green Synergy Enhanced users can simply add 1 scoop to water or a smoothie and quickly enjoy a delicious glass of "Greens".

What do the experts say?

"Our Supercharged Green Synergy Enhanced is a wholefood superior product compared to other "green diet supplement powders" on the market. Unlike other products, ours is classified as a food and is infused with goat milk minerals. It helps in digestion, absorption and functional utilization and effectiveness. We invite you to experience the difference".
